The world's most innovative and outstanding provider of benefits, solutions and services to the LPG business.

KC Facility Management – winning the LPG business:

Facility management implies that the production and maintenance processes of your filling plant are outsourced to KC in whole or in part.

- Fixed costs are converted into variables
- It's easier to budget and make investment plans
- Cost per filled unit is reduced
- Less devaluation of production facilities
- Highly qualified and motivated staff providing improved efficiency, quality and safety.
